### VICTORIA CITY BY-LAWS.

No. 230.

*A By-law for regulating the supply of water by the City Water Works, and fixing the rates to be paid therefor.*

**W**HEREAS by the "Corporation of Victoria Water Works Act, 1873," the Municipal Council of the City of Victoria are authorized and empowered to make such by laws as to them shall seem requisite and necessary for (*inter alia*) prohibiting the selling, disposing, giving away, neglect or waste of water supplied by the Water Works, and for regulating the time, manner, extent and nature of the supply by the said works, the tenements or parties to which and to whom the same shall be furnished, the price or prices to be exacted therefor, and each and every other matter or thing relating to or connected therewith which it may be necessary or proper to direct, regulate or determine for issuing to the inhabitants of the City a continued and abundant supply of pure and wholesome water:

And whereas it is deemed expedient to repeal the existing by-laws relating to the matter aforesaid, and to amend and re-enact the same:

Therefore the Municipal Council of the Corporation of the City of Victoria enacts as follows:—

1. The "Water Works Prohibition By-law, 1877," the "Water Works Regulation By-law, 1885," and the "Water Rate By-law, 1892," are hereby severally and respectively repealed, and the following by-law substituted therefor:—

2. It shall not be lawful for any person, being the occupant, tenant or inmate of any house, or otherwise supplied with water from the Water Works of the City of Victoria, to vend, sell or dispose of such water, or give it away to any person or persons whomsoever, unless in case of actual necessity, or permit it to be taken or carried away by any person or persons whomsoever, or to use or apply it to the use or benefit of others, or to any other than to his, her or their own use and benefit, or to increase the supply of water agreed for with the Water Commissioner, or to wrongfully neglect or improperly waste such water.

3. That any person or persons guilty of an infraction of any of the provisions of the last preceding section shall, upon conviction before any Justice of the Peace before whom any proceedings may be taken for the enforcement thereof, on the oath or affirmation of any credible witness, forfeit and pay, at the discretion of the said Justice convicting, a penalty not exceeding one hundred dollars for each offence, together with the cost of such prosecution, or shall be imprisoned, at the discretion of the said Justice convicting, for a term not exceeding three calendar months, with or without hard labour, and in default of payment of said fine and costs forthwith it shall and may be lawful for the Justice convicting as aforesaid to issue a warrant under his hand and seal to levy the said penalty and costs, or costs only, by distress and sale of the

offender's or offenders' goods and chattels, and in case of no sufficient distress to satisfy the said penalty and costs, it shall and may be lawful for the Justice convicting as aforesaid to commit the offender or offenders to prison for any period not exceeding three calendar months, unless the said penalty and costs be sooner paid.

4. The owner or occupier of each building using the water of the said Water Works shall, at his own expense, lay down and provide, and at all times maintain and keep in good condition, all the pipes and apparatus upon his premises, or for his use, of the description, and subject to the rules, following, namely: Such pipes shall be anti-corrosive and laid to a depth of not less than sixteen inches below the surface of the ground, and be provided with a sufficient number of stop and waste cocks, with handles placed above the surface of the ground by which the water can be shut off and all pipes exposed to frost drained dry when required; and no consumer shall run, or allow to run, water to waste, either to prevent pipes from bursting by frost or otherwise.

5. The drawing (bib) stop and ball cocks shall be strong and of hard brass, and of the kind known as compression cocks, or such other kind as may be sanctioned by the Water Commissioner or City Engineer, and, in courts of houses and other exposed places, shall be protected by a casing made to open with a key and kept locked.

6. Every cistern supplied from the said Water Works must be absolutely water-tight, and provided with a ball cock and proper means of access and inspection, and must not have an overflow or waste pipe unless the same is constructed to the satisfaction of the Water Commissioner or City Engineer.

7. Every water-closet supplied from the said Water Works must be provided with a full and complete apparatus, with proper valves so arranged to let down not more than one boot or division full of water at each pull, and to prevent the water from running to waste by inattention or neglect, and a proper basin, scatterer, weighted lever, pan, trap and other appliances needful to prevent such water-closet from becoming a nuisance and inducing an undue consumption of water; and the valves must be worked by brass or copper wires: Every self-acting or pull-down water-closet must be of a description approved by the Water Commissioner or City Engineer. The double valve service boxes must be provided with a ball tap of the approved kind, half an inch in diameter. No water pipe shall communicate with a closet otherwise than with the cistern or service box, and so as to prevent the return of foul air or impure matter into the pipes of the said Water Works, and no water pipe shall communicate directly with any urinal or slop-hopper.

8. No water pipe must be laid through, in, or into any slough, drain, ash-pit, manure-hole, or other place from which, in the event of decay or injury to such pipe, the water of the said Water Works might become foul or escape without observation or without injury to the consumer. Where any such slough, drain, ash-pit, manure-hole, or other place shall be in the unavoidable course of the water pipe, such pipe shall be passed through an exterior cast-iron pipe or box of sufficient length and strength to afford due protection to the water pipe and to bring any leakage or waste within the means of easy detection.

9. No pipe or apparatus shall be connected with the said Water Works until it has been inspected by the proper officer of the said Water Works, and certified by him to be in accordance with the Water Works regulations.

10. Every water meter must (unless otherwise specially agreed) be provided with a separate inlet pipe leading from the main or other pipe of the said Water Works, upon which inlet pipe no stop-cock or other outlet leading to or connected with the premises for the supply of which such meter is fixed shall be attached.

11. No plumber or other workman shall be allowed to do or perform any work connected with the supply of water from the said Water Works until he shall have been admitted, enrolled, and published by the Water Commissioner as an authorized water works plumber, and shall have entered into a written engagement to conform to and comply with the by-laws, rules and regulations of the said Corporation in relation to the construction and management of the works and fittings to which such by-laws, rules and regulations shall from time to time apply, and any master plumber whose name has not been erased, as hereinafter provided, shall, on expressing his willingness to comply with such by-laws, rules and regulations, be admitted

immediately on signing an undertaking to that effect, and if at any time afterwards any such plumber shall wilfully break or evade any such by-law, rules or regulations, either by himself or any of his workmen, or shall refuse to communicate any information required of him in regard to any work done by him, or any of his workmen, or under his superintendence, or on his responsibility, the Water Commissioner shall cause his name to be erased from the list of authorized plumbers, and such name shall be forthwith advertised as having been struck off.

12. Until otherwise ordered by the Water Commissioner, by notice to be published seven days before taking effect, from the 15th day of April to the 15th day of September, both inclusive, in each year, no consumer of the water of the said Water Works shall use such water for irrigating except on the respective days hereinafter mentioned, viz.:—

In the North Ward on Mondays and Thursdays;

In the Centre Ward on Tuesdays and Fridays; and

In the South Ward on Wednesdays and Saturdays.

13. In every case in which a building or block of buildings occupied under two or more separate tenancies, each of such tenancies shall, for the purpose of this by-law, be considered as a separate building, and shall not be supplied with the water of the said Water Works except by means of a separate pipe laid from the outer edge of the sidewalk with a proper stop-cock; but an office or room, or flat of offices or rooms, not being on the main floor of a building, shall not be considered as a separate tenancy.

14. Any person or persons vacating any premises that have been supplied with water from the City main, or who may wish to discontinue the use thereof for a period of not less than one month, must give one week's notice of the same to the Commissioner in writing, otherwise such person or persons will be liable for the rent thereof.

15. Upon the receipt of an application from the owner or occupant of any premises for the introduction of water, the service pipe will be provided and laid by the City from the main to the line of the street, for which the following charges will be made, payable in advance:—

For $\frac{1}{2}$ -inch connection	.....	\$10 00
" $\frac{3}{4}$ -inch	"	15 00
" 1-inch	"	20 00
" $1\frac{1}{2}$ -inch	"	30 00
" 4-inch	"	50 00

16. All consumers must keep their service pipes and stop cocks and other fixtures on their own premises in good repair and order at their own expense.

17. Before connection is made with the street main the applicant must show to the satisfaction of the Commissioner, or person in charge of the work, that the pipe and the plumbing connected therewith within his premises is laid in accordance with the requirements of the said Commissioner or foreman, and unless the requirements are complied with connections shall not be made with the main.

18. When more than one house or premises are supplied through one service between the main and the street line, the service must be so arranged that the supply of water to each separate house or premises can be controlled by a separate stop cock placed within or near the street line.

Premises owned by different persons must have a separate service from the main for each consumer; consumers shall prevent all unnecessary waste of water, and shall make no concealment of the purpose for which the water is used.

19. The Commissioner, and all officers authorized by him, shall have free access at proper hours of the day, and upon reasonable notice being given or request made, to all land and all parts of every building in which water is delivered and consumed.

20. There shall be payable by every consumer or consumers of the water of the said Water Works for the purpose or purposes hereinafter mentioned, the following rates respectively:—
